ABOUT ME

I'm a front-end developer with a background in graphic design, I have a unique perspective on creating visually appealing and user-friendly web experiences. I love working with HTML, CSS and JavaScript, and have a strong understanding of responsive design and mobile optimization. I am passionate about staying up-to-date with the latest web development technologies and trends, and am eager to bring my skills and creativity to a new challenge.

EXPERIENCE

Worked as a Freelance Front-end Developer on Fiverr.

specializing in the development of static websites using HTML/CSS and JS. Delivered high-quality and visually appealing websites

Designed and developed a personal portfolio website using React JS and Tailwind CSS.

Implemented clean and modern design elements to showcase skills and experience, ensuring optimal performance and accessibility for users.

Achieved the top honour's in the Web Design Competition

8th April 2022
Inter Class Competition

Received Second Place in the National-level Competition

24th Sept 2022
